Disclaimers:

If additional information has been requested and you wish to provide it, please resubmit all the required forms updated to include the additional information. Full resubmission will expedite the Initial Eligibility Determination process. Therefore, please include a new RFS form indicating resubmission, revised Appendix A, Budget Form 1, and other supporting documents. **Please email your resubmission to arpa@nndoj.org.** Please be aware that under Resolution BFS-31-21 a Project or Program can only be reviewed twice, therefore it is critical that you include all the requested additional information for your second submission.

An NNDOJ Initial Eligibility Determination is based on the documents provided, which NNDOJ will assume are true, correct, and complete. Should the Project or Program change in any material way after the initial determination, the requestor must seek the advice of NNDOJ. An initial determination is limited to review of the Project or Program as it relates to whether the Project or Program is a legally allowable use – it does not serve as an opinion as to whether or not the Project or Program should be funded, nor does it serve as an opinion as to whether or not the amount requested is reasonable or accurate.

This Pandemic was/is most challenging for both members of the community living here and off the reservation due to loss wages, homes (off reservation) virus affecting members, lost relatives due to virus, and we had more members moving back to the reservation because of shortage of employment off reservation and they needed help with resources to either repair/renovate their homes. We have numerous requests coming forth to the chapter during the pandemic for help and our chapter does not have the funding source to assist "all" members requesting for help.

We have completed majority of the community assesment to indicate the needs to help our community members with the list above. Some of these homes were built in the sixties, seventies and some even more years but these homes are stable to renovate to up with the living standards so we have established the Home Improvement Project utilizing the ARPA FUND to assist as many families as we can to make sure their health, safety and living standards are considered by assisting them with these renovations/repairs. The identified project will promote healthier & safe homes especially for our elders & disabled members. Some homes have minor repair or renovations needed just a handful but the rest are in dire need of renovations especially doors/windows where cold is going through cracks in them or broken. We have referred a lot of our community members to outside resources for help but due to this Pandemic these resources funding are depleting fast or have no funding at all for assistant. This project is a resort for the community members to resort to at this time of the ongoing Pandemic.

Our chapter among other 110 chapters "we" do have our own community members that have the expertise, experience and/or licensed Plumbers/Electricians to perform the duties of repair/renovations of these homes wthout having to resort to outside contractors to do the job for the chapters so we will be hiring our own community members to work with this project performing the same job as the contractors.

Our chapter relays on our own community members to perform duties of sort to complete the task on these projects. We will hire and use the requested ARPA FUND to pay for their services up to the completion of this Home Improvement Project for the community members in need.

1.9 PAYROLL COSTS FOR PUBLIC HEALTH, SAFETY, AND OTHER PUBLIC SECTOR STAFF RESPONDING TO COVID-19 (Included)

Result of the community assessment we have found out there are a lot needs within our community homes with their appliances. Some appliances are so outdated it an accidental risks, or might cause fire, or some families have old cooling system they only have to store so little food to keep cold at least. Some appliances do not work at all so other alternatives are used such as using out dated wood stove to cook on, Wood stoves have cracks, holes, doors not closable or stove pipes are worn out causing smoke inhalation (health hazards), heat over heating walls behind or under stove (safety hazard), Pellet stove are old or worn need replacement and Chimney Kits needs to be replaced (fire hazard) and Water heaters are not working properly some are not workable overall this project will need to highly considered for the safety, health and accident prevention for our community members.

These appliances will be installed by our hired Public Employment Workers and we will have these appliances properly selected for each home so price may vary and properly installed for families.

This Pandemic is not leaving for some time soon and we have different viruses hurting our community members even though continued training is done to the public or announcement people are being affected on daily basis.

This project is to help those families with proper appliances to use daily without health risks, fire hazards, and promote healththeir home environment.

1.9 PAYROLL COSTS FOR PUBLIC HEALTH, SAFETY, AND OTHER PUBLIC SECTOR STAFF RESPONDING TO COVID-19

The Chapter will hire temporary Public Employment Program employees to fulfill the Home Improvement Project - we have experienced (expertise) and licensed members of the community that we will hire to perform the task of repairing/renovating, installing required home equipment to complete this task of the Home Improvement Project. During this Pandemic there have been a lot of loss employment within neighboring cities reflecting members to resort back to living on the reservation and unemployment rate for the Navajo Nation is very high for years and years and employment positions advertised are most challenging due Degree is always required so we do our best to help families resort to PEP to help them with temporary employment to ease financial instability during this hard time of the Pandemic.
