provide improved direct services for community members seeking COVID-19 related services
Currently, the chapter house is not in compliance with ADA standards and cannot accommodate a
large capacity which causes staff to meet with community members outside. Without adequate
facilities and accessibility, staff are limited in rendering efficient and quality services, leaving
community members, especially those with disabilities, to endure hardship. Installing ADA features to
the chapter house will improve the staff's ability to communicate information, distribute essential items,
share resources, assist and advocate for community members in need of housing, transportation,
health, and other related services.
