RE: CD-67-22, *An Action Relating to Naabik'iyáti' Committee, and Navajo Nation Council; Approving the Navajo Nation Fiscal Recovery Fund Delegate Region Project Plan for Honorable Amber Kanazbah Crotty's Delegate Region (Chapters: Cove, Toadlena/Two Grey Hills, Red Valley, Tooh Haltsooi' (Sheepsprings), Tse' Alnaozt'i' i', Beclabito, Gadiiahi/To 'koi)*

Dear Speaker Tso,

The Nez/Lizer Administration appreciates the Chapters' endeavors to work collaboratively with their respective Council Delegate in completing the process to access funding made available with the \$211,256,148 allocated for regional expenditure plans under CJN-29-22.

The process to secure funding also involves collaborative efforts between the Chapters, the Division of Community Development, Navajo Nation Fiscal Recovery Fund (NNFRF) Office and the Navajo Nation Department of Justice (NNDOJ). Per BFS-31-21, each proposed expenditure must obtain NNDOJ verification that each proposed project is an eligible expense within ARPA/NNFRF regulations. Each of the projects within CD-67-22 has met all the requirements.

The ARPA/NNFRF process is still evolving since the inception of this funding. Within the United States Treasury and the Navajo Nation, processes have been updated at various times. An example is the Treasury guidelines referenced within Navajo Nation Council resolutions CJY-41-21 and CJN-29-22; the Treasury guidelines exhibit was updated by the United States Treasury on September 20, 2022. Accordingly, the legal guidance provided by NNDOJ and Office of Legislative Counsel is modified to comply with the Treasury guidelines.

One such modification of legal guidance involved the processing of regional expenditure plans. Originally, the guidance was that all projects had to equal \$8,802,340 to be considered as completed and ready for legislative action. This guidance was modified in December 2022 to allow partial funding of the \$8,802,340 allocations so that proposed ARPA/NNFRF projects ready for legislative action could be processed by Office of Legislative Counsel. Because of the time constraints for the 24th Navajo Nation Council to act on proposed legislation, programs did not have sufficient time to provide written verification to Chapters regarding the change in legal guidance.

THE NAVAJO NATION

Pursuant to the authority vested in the Navajo Nation President, I am signing Resolution CD-67-22 into law.

Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

The purpose of this project is to avail the Cove community to a laundromat to clean clothing, bath towels and washcloths, dish and wash towels, bedding, and other personal sanitized items for every day use. This project will shorten the miles and timeframes for community members to access laundromats in nearby towns and municipalities thereby saving them laundromat fees and gasoline prices. The requested funds will be used to construct the laundromat and to install washers and dryers. The laundromat will serve all of the Cove community members and residents and provide the Senior Citizens Center's laundry needs. document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

The proposed laundromat will provide and meet the Cove community members and the Senior Citizens Center their laundry needs to clean and sanitize their personal clothing, bath towels and washcloths, and other personal and household items. The pandemic illustrated the lack of non-laundry facilities and equipment to wash, cleanse, and sanitize personal and household items to insure community members' health and safety. document attached

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

January 2023 - Project Bid and Award
February 2023 - Pre-Construction and Notice to Proceed
February 2023 to December 2023 - Construction Activities
January 2024 - Project Completion
February 2024 - Final Expenditure and Project Completion Report

document attached

(d) Identify who will be responsible for implementing the Program or Project:

Chapter President will oversee the overall project activities
Chapter Manager will oversee project funding expenditures
Administrative Assistant will process expenditure payments and reports
Cove Chapter is a LGA Certified Chapter.

document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

The Chapter Manager and Maintenance Worker will be responsible for the operations and maintenance of the completed facility. The proceeds from the collected laundromat fees will be use for maintenance and repairs with the chapter offsetting the costs with additional funds.

document attached

(f) State which of the 66 Fiscal Recovery Fund expenditure categories in the attached U.S. Department of the Treasury Appendix 1 listing the proposed Program or Project falls under, and explain the reason why:

- 1.12 - Other Public Health Services
- 2.13 Other Economic Support
- 3.13 - Social Determinants of Health: Other
- 6.1 Provision of Government Services

Project will deliver services relative to Other Public Health Services, Other Economic Support, Social Determinants of Health: Other, and Provision of Government Services to support COVID-19 sanitation and basic cleansing and sanitation needs, reduce individual vehicles expenditures to increase other economic expenditures for food and personal hygiene, and improve the community's quality-of-life outcomes and risks. The project will provide an immediate need for laundry services as Cove is a remote community and no private service provider is willing to initiate a laundromat soon to help our community combat the effects of COVID-19.

ABSTRACT

A CULTURAL RESOURCES INVENTORY OF THE COVE CHAPTER HOUSE TRACT, APACHE COUNTY, ARIZONA

NNAD 94-028

On behalf of Cove Chapter and the Capital Improvement Department, Navajo Nation Division of Community Development, a cultural resources inventory has been completed for the Cove Chapter Tract. This inventory was conducted to locate historic properties within the Chapter House Tract for the construction of a preschool building, construction of a senior citizen's building, placement of utilities and the paving the Chapter House parking lots. The rest of the area was inventoried for general planning of the Cove Chapter. As individual undertakings are identified, compliance with Section 106 of the NHPA will be conducted.

The fieldwork was conducted by Denise R. E. Copeland of the Capital Improvement Department, on January 18, 1994. The project area is located within the Cove Chapter, in the W 1/2, of Section 25 of T 37 N, R 29 E; GSRM; Apache County, Arizona. Approximately 15.09 ac (6.11 ha) of land was inspected.

Cultural resources located during the inventory include eight (A-H) in-use areas within the Chapter tract. None of the in-use resources (A-H) meet the 50 year guideline for inclusion into the National Register of Historic Places.

INTRODUCTION

On behalf of Cove Chapter, and the Capital Improvement Department of the Navajo Nation Division of Community Development, a cultural resource inventory has been completed for the construction of the Cove Preschool Building, placement of the utilities and the paving of the Chapter House parking lots. The fieldwork was conducted by Denise R. E. Copeland of the Capital Improvement Department, on January 18, 1994.

DESCRIPTION OF UNDERTAKING

The proposed undertaking consists of construction of a preschool building, construction of a senior citizen's building, placement of utilities and the paving the Chapter House parking lots. The rest of the chapter tract was inventoried for general planning of the Cove Chapter. As individual undertakings are identified, compliance with Section 106 of the NHPA will be conducted.

PROJECT LOCATION

The chapter tract is located within the Cove Chapter of the BIA Eastern Agency in Apache County, Arizona on the Navajo Indian Reservation (Figure 1). The specific location of the chapter tract is depicted on the Cove, Arizona USGS quad map (Figure 2). The legal location is in the W 1/2, of Section 25 of T 37 N, R 29 E; GSRM; Apache County, Arizona. The land status of the project area is Tribal Fee land. UTM's coordinates are listed in Table 1.

C	South Corner:	40 49 940 m,	6 61 940 m
D	West Corner:	40 50 100m,	6 61 760 m

AREA ENVIRONMENTAL AND CULTURAL SETTING

The project area is located on a northeast-southwest running ridge between two unnamed drainages in the Redrock Valley. The geological age of the area is characterized by the Cretaceous Period. The soils of the area consist of well drained aeolian sands. The elevation of the project area is 6050 ft/1844 m. Slopes for the general area vary from 0-10%. No permanent surface water was observed within the project area. The vegetation in the chapter tract is snakeweed, thread-leaved groundsel, cheat grass, Russian thistle, and juniper.

The Cove area is currently characterized by a rural Navajo settlement system comprised of single and multiple home clusters. Improved and unimproved dirt roads crisscross

the area. Other modern features in the general area include pipelines, waterlines, powerlines, and phone lines.

EXISTING DATA REVIEW

As part of this project, the archival data of the Navajo Nation Historic Preservation Department (NNHPD) in Window Rock were consulted. Within 1 km (.6 mi) of this project, four previously completed projects and six previously recorded sites are known. The projects and the site are listed in Table 2.

The following sources were reviewed for information on Traditional Cultural Properties in the general area, Navajo Indians III (Van Valkenburgh 1974) and Dine Bikeyah (Van Valkenburgh 1941). No known Traditional Cultural Properties were identified within the chapter tract by these sources.

FIELD METHODS

The fieldwork of the fenced Chapter Tract was completed by Denise R. E. Copeland of the Capital Improvement Department of the Division of Community Development. Mr. Ted Charles of the Shiprock Sub-office of Navajo Land Department informed the author that the legal survey of the Cove Chapter Tract used the existing fence in 1989. The cultural resource fieldwork was completed on January 18, 1994. The project area was investigated using a Class III (100%) level, pedestrian survey strategy utilizing parallel transects spaced about 15 meters apart. The Cove Chapter House Tract consists of approximately 15.09 ac (6.11 ha) of land, all of which was inspected.

Data about Traditional Cultural Properties and the dates of the existing buildings, in the Chapter Tract was collected by the author from Ms. Evelyn Yazzie, Secretary/Treasurer; Mr. Joe Harvey, Grazing Board Member and Ms. Alberta King, Community Service Clerk/Typist on January 18, 1994. No Traditional Cultural Properties were identified in or around the Chapter Tract.

Resource Definitions

The following describe the NNAD working definitions for cultural resources.

Isolated Occurrence: Any non-structural remains of a single event; alternatively, any non-structural assemblage of approximately 10 or fewer artifacts or other material within an area of approximately 10 square meters or less, especially if it is of questionable human origin, if it appears to be the result of fortuitous causes, or if it lacks integrity (1991b). Rock art, burials, sacred places, and formal features are not recorded as isolated occurrences.

Traditional Cultural Properties: This include both places with material remains and places that lack the evidence of human use that would qualify them as archaeological sites, historic properties, or graves (NNHPD 1991a). Traditional Cultural Properties with material remains may include, but are not limited to, sites that may have been blessed and where ceremonies may have occurred, such as those with hogans, houses, sweathouses, game corrals (needzii'), eagle traps and so forth; other sites where ceremonies and rituals occurred (if evidence of such use, such as, the remains of ceremonial structures, are visible); trail shrines; rock art; and both marked and unmarked graves (NNHPD 1991a). Such places that lack clear evidence of human use include, but are not limited to, the following types: places for gathering plants for use in ceremonies and other traditional purposes; places for gathering minerals for other traditional purposes; places for gathering contents of sacred bundles; places for gathering other materials for ceremonial and other traditional purposes; prayer-offering places; places associated with the general Navajo origin story; places associated with origin stories of particular ceremonies; places associated with the origin of a clan; places associated with the origin of a Navajo custom; places identified as the home of a Holy Being such Wind, Lightening, Big Snake; location of echoes (Talking Rocks, which convey human words to the Holy People); natural discoloration of rock that has some kind of supernatural event power; and places that have a part in the life-cycle rituals of individuals (such as the spot where a newborn baby's umbilical cord is placed). Many of these sorts of places are features of the natural landscape, such as mountains, hills, rock outcrops, springs, and individual trees (NNHPD 1991a).

Site: The location of an event, belief, or activity, a prehistoric or historic occupation or activity, or a building or structure, whether standing, ruined, or vanished, where the location itself maintains historic, archaeological, or traditional cultural value regardless of the value of any existing structure. Note: does not include isolated historic trash dumps less than ten to twenty years old.

CULTURAL RESOURCE FINDINGS

Eight in-use areas (A-H) were identified during the cultural resource inventory. Notes were taken on the types of structures present and the known age of the areas. The dates of the areas were collected from Ms. Evelyn Yazzie, Secretary/Treasurer; Mr. Joe Harvey, Grazing Board Member and Ms. Alberta King, Community Service Clerk/Typist on January 18, 1994. This information is given in Table 3 and the locations are shown in Figure 3.

EVALUATION OF SIGNIFICANCE

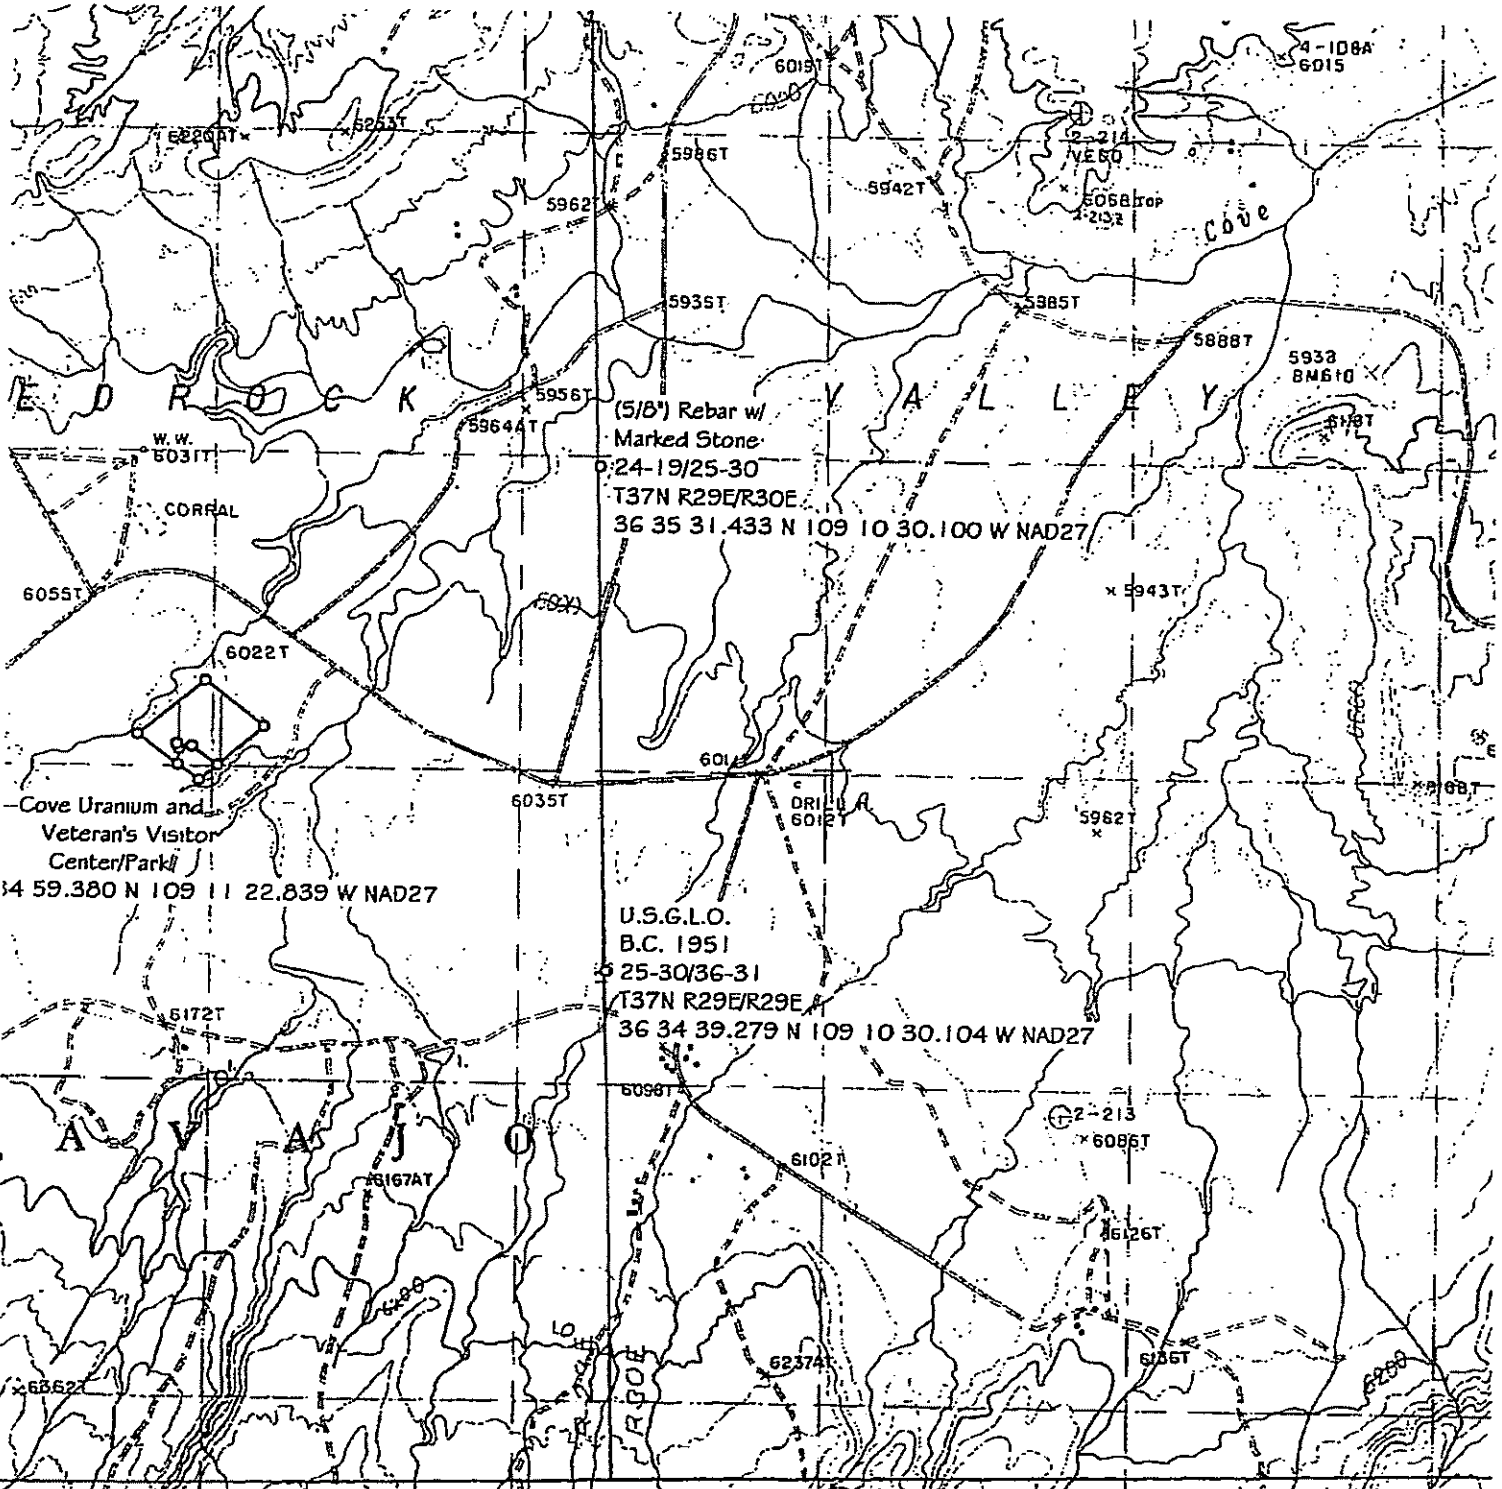

None of the in-use resources (A-H) meet the 50 year guideline for inclusion into the National Register of Historic Places. No historic properties were located within the project area.

MANAGEMENT RECOMMENDATIONS

No historic properties were located within the project area and approval of this undertaking is recommended with the following general recommendations. If any previously undetected cultural resources are discovered during the undertaking (e.g., pottery, bone, stone tools), all activity should cease in that area and the Navajo Nation Historic Preservation Officer (602 871-6437) should be immediately notified. Upon inspection of the remains, direction on how to proceed will be given pursuant to 36 CFR 800.11. Any future development within the chapter tract will require compliance with Section 106 of the National Historic Preservation Act.

SUBJECT: **COVE CHAPTER LAUNROMAT & SEWER LAGOON PROJECT - \$1,159,879.00**

On behalf of the Cave Chapter, we are respectfully requesting funds for planning, design and construction for Cove Chapter Laundromat & Sewer Lagoon Project. Cove Chapter Government have been working diligently and collaborating to make this project a reality. This will also initiate the support of our local business and employment for our community and their families abroad, as we all know due to the limited Financial Resource; we have been requesting and seeking funds through the Navajo Nation Council to consider and approved our request. With the American Rescue Plan Act Funds (ARPA) is a onetime opportunity for our Chapter project to get funded.

In our Infrastructure Capital Improvement Plan (ICIP) 2021 - 2024 we have listed this project as a priority one. Since Cave Chapter community is located in remote and unique area, we would like to have our project become reality in having our own Laundromat within the Chapter house tract area so our community and their families won't have to travel certain distance to do their Laundry. With the Pandemic were are still encouraging our community to stay home as much as possible to stop the spread of the COVID-19 Virus, in that respect our request should be granted.

Your consideration and prioritizing this project will be greatly appreciated in advance. Contact me directly at (928) 653-5806 or my email address is ljohnson-roy@navajochapters.org Thank you.

The Cove Chapter consists of 660 registered chapter voters with limited resources and infrastructure development which has hindered the economic growth in the community. In 1998, the Navajo Nation Council adopted the Local Governance Act (LGA) by Council Resolution CAP-38-98; this becomes law under Title 26 of the Navajo Nation Code. This law grants governmental authority to decide on local matters to the Navajo Nation Chapters, the Cove Chapter is in the process of acquiring LGA Certification. There are two fundamental requirements for LGA Certification as stated in section 101; the adoption of a five-management system and a community-based land use plan. One August 25, 2005, the Cove Chapter diligently completed their community-based land use plan and was certified by the Navajo Nation Transportation and Community Development Committee (TCDC) and on February 20, 2018 the Resource Development Committee (RDC) approved the Cove Chapter Land Use Plan for another 5 years with approved update Land Use Plan booklet.

Outcome of the Project:

The Chapter Manager will have the administrative capacity as a project manager to oversee the project and will work closely with the Capital Improvement Office, Navajo Tribal Utility Authority, Navajo Land Department, making sure that the project is according to specification. The chapter will be a part of the decision and planning phase of the project. The Cove Chapter will assume the role of project management of their affairs.
