SUBJECT: DOJ Response to Housing Renovation Assistance Packet

Here is Smith Lake Chapter's response to the questions from the Navajo Nation Department of Justice:

1. What is the eligibility criteria for households to seek assistance?

The first eligibility criteria for housing renovation assistance are that the applicants are Smith Lake Chapter registered voters and have lived physically in the community for more than six (6) months. The Chapter will then conduct home assessments through an intake form and checklist to determine their eligibility for minor or major home repair.

2. Will all those eligible receive assistance or will the households or particular projects be prioritized given limited resources?

All community members are encouraged to apply, and each will be thoroughly reviewed for eligibility. The Chapter Administration will use the housing assessments as references to determine prioritization of each applicant's request for housing renovation. The goal of the chapter is to assist as many applicants, if not all of the eligible applicants.

3. Is there a maximum amount or limit that households will receive in terms of goods and services?

The Chapter Administration will consider each household within Smith Lake community to request for housing renovation based on eligibility terms. Depending on each household the maximum amount for assistance is \$1,500 for housing materials, which will cover 233 applicants for housing renovation assistance. The Chapter will request for three quotes to seek assistance for their home repairs. The Chapter Administration will be responsible for housing renovation forms to be filled out by the applicants. The Chapter Administration will be responsible to deliver and purchasing housing materials to their house located within Smith Lake Community. The laborers will be Chapter PEP who will be tasked to work on the housing renovation.

4. Will household receive cash assistance, or will the Chapter be responsible for providing goods and services?

The Chapter will be responsible providing the goods and services. Home improvement meaning goods and services brought in connection with home renovation. Such home improvement good and services include walls, sheetrock, flooring, framing, roofing, doors, windows, and other goods which to improve homes by the PEP laborers from Smith Lake Chapter.

5. Will all assistance be related to asbestos removal, preventing hazards, and similar repairs? Please describe any other assistance that may be eligible.

The Chapter will not provide assistance for asbestos removal due to extra cost and has to be determined

RESOLUTION OF SMITH LAKE CHAPTER SLC-10/2022-001

REQUESTING THE NAVAJO NATION COUNCIL RESOURCES & DEVELOPMENT COMMITTEE (RDC) TO APPROVE & ENACT LEGISLATION TO AUTHORIZE CONSENT FOR INFRASTRUCTURE PROJECTS FUNDED BY ARPA/NNFRF & OTHER FUNDING SOURCES THAT WILL BENEFIT & MEET THE BASIC NECESSITIES OF HOUSING, WATER, POWER, & TELECOMMUNICATIONS FOR NAVAJO PEOPLE

14. We need a bold solution to allow critical infrastructure projects that benefit the Navajo people to move forward and meet funding deadlines, while still respecting the rights and concerns of the Grazing Permittees; and
15. The most effective solution to this problem is to enact legislation that allows the Navajo Nation to approve TAAs and/or ROW consents in a timely manner to benefit Navajo people and chapters; and
16. A potential legislative solution for the Resources and Development Committee (RDC) to consider by enactment of legislation is a situation, where Grazing Permittees cannot be found or are unwilling to give consents under the following conditions:
 - A. The project must provide a public benefit to the Navajo people, such as water and power supply and distribution, service line extensions, or economic/community development; and
 - B. The Project Sponsor(s) shall document their efforts to reach out to the Grazing Permittee(s) prior to construction to give them the opportunity to ask questions and voice their concerns, how contact/notification was made, why consent was not obtained, and what effort was made to mediate peacemaking efforts; and
 - C. Reasonable efforts typically consist, at the minimum, of at least three (3) attempt to contact permittees by phone, email, mail and/or person; and
 - D. The Grazing Permittee shall have thirty (30) days to respond to the project sponsor and, in the absence of such a response, they shall be deemed to have waived any objection to the project.
 - E. A Grazing Permittee not having an updated tally count or who is otherwise out of compliance with the grazing lease cannot raise objection; and
 - F. There shall be at least one (1) peacemaking session with an elected official to allow the Grazing Permittee to state his/her grounds for the objection or to reach an agreement; and
 - G. If an infrastructure project traverses more than one (1) grazing permit, obtaining consent from 50% or more of the grazing permittees affected by the overall project shall be deemed sufficient for project approval. Consent for every single grazing permit shall not be required. If an infrastructure project traverses only one (1) grazing permit, consent from the grazing permittee(s) shall not be required; and
 - H. The Project Sponsor(s), Chapter officials and their designees shall be authorized to obtain consent signatures; and
 - I. This option/waiver is only for infrastructure projects, such as water, wastewater, electric, telecommunications, that benefit the Navajo people, and shall apply regardless of project funding source; and
 - J. This policy shall not apply to projects such as oil and gas or other projects that do not benefit the Navajo people.
 - K. This streamline policy shall "sunset" on December 31st, 2026, unless extended by RDC.
17. This option would provide the following benefits:
 - A. Expedite delivery of basic and life-essential services to the Navajo people; and
 - B. Meet stringent funding deadlines to avoid loss of funding; and
 - C. Streamline administrative processes for a specific time to achieve completion of necessary and essential basic infrastructure to the Navajo people; and
 - D. Create jobs for Navajo people by getting projects into construction; and
 - E. Respecting rights of Grazing Permittee(s) by employing appropriate communication and attempts to obtain consent for the delivery of basic infrastructure to existing homesteads, with the understanding that certain waivers may result due to non-consent.
