**Part 2. Expenditure Plan details.**

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

This funds will be used to purchase a heavy duty truck needed to tow the combination restroom and shower mobile trailer to strategic sites within the Upper Fruitland community especially during inclement weather which affect the unpaved roads. The COVID-19 Pandemic severely impacted the Navajo Nation causing a high number of infections to citizens and even fatalities. The United States Center of Disease Control stringently advocated washing or sanitizing hands, social distancing and wearing of masks. This vehicle towing the combination trailer will provide the opportunity for citizens to maintain their hygiene necessities while the facility is periodically sanitized.  document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

The elevated number of homes upon the Navajo Nation lack access to one or more of the following utilities; electricity, water, wastewater and broadband. Residents of the United States require these utilities to ensure they live healthy in their daily lives; therefore, using this truck to move the combination restroom and shower will provide access for citizens lacking at least two of these utilities. This asset will assist in promoting public health and economic stimulus.  document attached

Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

Based upon the funding, the project completion date will be December 31, 2026 with all funds being incurred before December 31, 2024. The Navajo Nation Budget forms are attached and illustrate the phase goals per quarter of funding period.

This project will consist of contracting several septic system cleaning entities to clean out the domestic wastewater systems already in place. The project will also be to replace or install leach field systems to homes to ensure clean water can exit as wastewater. This cleaning, replacement or installation of septic/leach systems will directly address one of the major sanitation deficiencies connected to the large volume of COVID-19 outbreak upon the Navajo Nation. There are a large capacity of homes on the Navajo Nation that lack access to the basic utilities of electricity, water, wastewater and broadband. Many residents require use of these utilities in their daily lives to live the healthy lifestyle. This project will at least address the water and wastewater utility services to homes while promoting public health and economic stimulus as heavy duty truck tows the combination restroom and trailer to strategic sites through the community.</p>
