Forest Lake is a small, rural community without a centralized hub to provide septic cleaning services. All services are operated by private companies and only during the warmer months when roads are better maintained. To ensure hygienic conditions to community members is and will remain a priority project. Due to the harsh terrain and expansive dirt road system-private companies pass along high costs as lagoon to receive black and grey waste are costly to access and limited in scope. As most homes are built with cistern systems due to the landscape these services are essential. document attached
