Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

The housewiring project was determined based on community survey assessments for homeowners whose homes are in need of upgrades, installation, electrical wiring, powerline connection, and other related housewiring expenses i.e. advertisement/newspaper fees, assessments, contractural services, supplies, and materials. 100 community members listed on the community survey listing will receive housewiring assistance. COVID-19 is still prevalent and this project will improve the quality of life for homeowners by providing capability to have a refrigerator, hot water heater, washer/dryer and etc.

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

COVID-19 is still a prevalent pandemic that continues to plague the lives of Navajo families and communities. People's homes were built between 1960's - 1990's and do not meet United States' electrical code requirements that NTUA deems enforceable for homes. Electricity will provide lighting, refrigeration, cooling, hot water, and other important utilities needed when COVID-19 protocols require quarantine. The project will improve the quality of life for homeowners and their families document attached

⁽c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

APPENDIX A

The project will begin as soon as funds are encumbered no later that December 2024 and funds will be expended by December 31, 2026.
