RE: CD-62-22, *An Action Relating to the Naabik 'iyáti' Committee and Navajo Nation Council; Approving the Navajo Nation Fiscal Recovery Fund Delegate Region Project Plan for Honorable Kee Allen Begay, Jr.'s Delegate Region (Chapters: Tachee/Blue Gap, Many Farms, Nazlini, Tselani/Cottonwood, Low Mountain)*

Dear Speaker Tso,

The Nez/Lizer Administration appreciates the Chapters' endeavors to work collaboratively with their respective Council Delegate in completing the process to access funding made available with the \$211,256,148 allocated for regional expenditure plans under CJN-29-22.

The process to secure funding also involves collaborative efforts between the Chapters, the Division of Community Development, Navajo Nation Fiscal Recovery Fund (NNFRF) Office and the Navajo Nation Department of Justice (NNDJOJ). Per BFS-31-21, each proposed expenditure must obtain NNDJOJ verification that each proposed project is an eligible expense within ARPA/NNFRF regulations. Each of the projects within CD-62-22 has met all the requirements.

The ARPA/NNFRF process is still evolving since the inception of this funding. Within the United States Treasury and the Navajo Nation, processes have been updated at various times. An example is the Treasury guidelines referenced within Navajo Nation Council resolutions CJY-41-21 and CJN-29-22; the Treasury guidelines exhibit was updated by the United States Treasury on September 20, 2022. Accordingly, the legal guidance provided by NNDJOJ and Office of Legislative Counsel is modified to comply with the Treasury guidelines.

One such modification of legal guidance involved the processing of regional expenditure plans. Originally, the guidance was that all projects had to equal \$8,802,340 to be considered as completed and ready for legislative action. This guidance was modified in December 2022 to allow partial funding of the \$8,802,340 allocations so that proposed ARPA/NNFRF projects ready for legislative action could be processed by Office of Legislative Counsel. Because of the time constraints for the 24<sup>th</sup> Navajo Nation Council to act on proposed legislation, programs did not have sufficient time to provide written verification to Chapters regarding the change in legal guidance.

**Part 2. Expenditure Plan details.**

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

**Broadband/Cellular Tower is identified to be installed (18) miles East of Many Farms Chapter (N36°19' 41.00" W109° 25' 11.00"). There are approximately 2,500 community members who reside within the area and building a tower at this location would provide access to telephone and high-speed broadband services. The outbreak of the COVID-19 pandemic has defined the need for access to Internet services for work and distance learning, and when schools switched to distance learning in March 2020, the majority of the families living in this particular area lacked access to services which resulted in severely affecting the connectivity of students and homework bound.**

document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

**This service will provide to community members of this region an opportunity to connect to 3G and 4G/LTE Network services. This network will offer unprecedented educational opportunities. Students will be able to attend classes on-line and will allow individuals to work from home. The 4Gnetwork will also improve public safety on the reservation, where patchy cell phone and radio coverage are vast.**

document attached

(c) Provide a prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the

Program(s) or Project(s) by December 31, 2026:

10/27/2022 - Draft Proposal Submittal; 11/7/2022 - Pass Chapter Resolution - Continue completing proposals; December 2022 NN Council Winter Session (Delegates Pass Legislation)  
1/01/2023 - Build Tower; scheduled to be completed by 12/31/2025.

(d) Identify who will be responsible for implementing the Program or Project:

Many Farms Chapter Administration & Officials  
Smith Bagley INC., Cellularone of NEAZ

document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

According to Smith Bagley INC., once the tower is built it will be the responsibility of the company for the operations and maintenance costs.

document attached

(f) State which of the 66 Fiscal Recovery Fund expenditure categories in the attached U.S. Department of the Treasury Appendix 1 listing the proposed Program or Project falls under, and explain the reason why:

Expenditure Category:

6.1 Chapter Projects

5.19 Broadband: "Last Mile" projects

This project will provide Internet and cell phone coverage to more than 2,500 people. That's nearly half of the resident within the Many Farms community. As a Third World communication platform we have today, this technology will allow customers to connect wirelessly to the broadband from home computer or mobile devices.

**Part 2. Expenditure Plan details.**

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

Drainage/Septic System Project/Failed Septic Services: According to LMC project plans, the 2021 needs assessments, approximately 18 homes were in dire need of drainage septic/system replacements. Homes built in the early 1980s and drainage/septic systems installed early 1980s and in May and June 2022 many of these systems have failed to operate or function properly for home ownership. The LMC did give the Sterling Foundation a price quote of \$262,568.00 for the replacement project but they deemed this to be costly and excessive for the foundation to assist funding the drainage system project.

With the COVID-19 pandemic still on the Navajo Nation, the local official's concerns are in some homes where there are more than one family. It's critical when the family needs to quarantine and go into isolation due to COVID-19 infection of other family members. The overcrowding and closeness within these home situations become critical that leads to rampant unchecked growth or spread of COVID-19 infections of the whole household.

Upon completion of the proposed drainage/septic system, replacement projects will effectuate a better living condition for all the family members and improve their health environments as well.

document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

Whether we know it or not, living conditions within our communities have been cited as comparable to third world living (Gallup independent) It is impossible to succinctly describe the many factors that have contributed to the challenges that our communities face today, but the following facts about the most pressing issues of economic, health and better homes gives a hint of what life is like for many of our chapter's memberships. The lack of better homes is a public health crisis where some family, due to the pandemic, the LMC may have some of the worst social and economic outcomes. We are more likely to be negatively affected by funding cuts, lack of the same and policy changes. We can just hope for the best with this ARPA funding request. The Navajo Nation can learn from this and can be very beneficial.

document attached

(c) Provide a prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the

Program(s) or Project(s) by December 31, 2026:

ARPA funding meeting the specified needs will expedite to carry or cause to go with haste completion on or before December 31st, 2024 or fully expand funds and completion of project by December 31st, 2026. Precise scheduling and commitment, funding can be incurred by December 31st, 2024.

document attached

(d) Identify who will be responsible for implementing the Program or Project:

Main responsibility with the appointed project manager and community service coordinator in coordination with Chapter officials. Chapter advisements and some trainings to home ownership with primary responsibilities and maintenance upkeep.

document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

Selected home ownerships will be charged with operations and maintenance upkeep and costs for the project once completed prospectively. Maybe deferred to the Navajo Nation Aging Services Program.

document attached

(f) State which of the 66 Fiscal Recovery Fund expenditure categories in the attached U.S. Department of the Treasury Appendix 1 listing the proposed Program or Project falls under, and explain the reason why:

5.4 Under this category, because bathrooms are an important support necessity for cleanliness, especially for the elderly population, people with disabilities, single parents, children and older veterans.

Pursuant to the established guidelines and funding objectives, the chapter administration building will enable staff to address and provide improved direct services for community members seeking COVID-19 related services which are now being rendered out of the chapter house. Currently, the chapter house is not in compliance with ADA standards and cannot accommodate a large capacity which causes staff to meet with community members outside. Without adequate facilities, staff are limited in rendering efficient and quality services, leaving community members to endure hardship. A renovated administration building will improve the staff's ability to communicate information, distribute essential items, share resources, assist and advocate for community members in need of housing, transportation, health, and other related services.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

The project objective is to construct 8 bathroom additions for community members with disabilities and/or elderly to promote healthy, sanitary and safe bathroom access in accordance with ADA regulations and codes. Eight members of the Blue Gap/Tachee/Burntcom community lack the basic bathroom accessibility to wash and sanitize in a concerted effort to prevent the spread of COVID-19. Due to these community members having limited income, they are seeking chapter support for these additions so they can mitigate and prevent the spread of COVID-19 among their households.

The project will help mitigate and contain a healthy environment, sanitary facilities and prevent the spread of COVID-19 for community members with health issues and/or disabilities. The project will also promote healthy living conditions and accessibility to facilities that will help fight against COVID-19.
