Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

To renovate our Community Building (Chapter House) which was built in 1963. The existing structure has passive heating, outdated plumbing and electrical systems and does not adequately meet the building codes and requirements for a public facility. Currently the plumbing for the facility is not working due to tree roots in the sewer line leading away from the building. As a result, the building does not have restrooms available inside, but provides porta-johns on the exterior of the building. There are no adequate hand washing sinks available in the Community Building as well. The Community Building uses passive heating to heat up the main room and uses outdated wall mounted heaters which are inadequate for the rooms and offices they serve.

document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

The Community Building (Chapter House) serves the entire community with various functions. Daily operations include water hauling, trash disposal, community members inquiring about assistance, programs, and other pertinent information. Members of the community come to the facility to take advantage of the services provided.

MEMORANDUM:

TO: Lela Sangster, Account Maintenance Specialist (AMS)

FROM: 
Patricia D. Begay, Senior Program & Project Specialist (SPPS)
Fort Defiance Administrative Service Center (ASC) Area Office

SUBJECT: Delegation of Authority

The Klagetoh Chapter is currently without a Community Service Coordinator (CSC) due to Mr. Edward Clark's resignation effective Friday, October 7, 2022. Therefore, effective Monday, October 10, 2022 you are delegated as the CSC until further notice.

The delegation of authority includes maintaining the overall Chapter Administration; work and communicate with the Elected Officials/Committees; attend meetings/trainings as required; approve staff leave request and travel as necessary. All Chapter Policies and Procedures are to be followed to ensure the Chapter operation is consistent. Any complex issues or questions that may arise, consult with me as needed.

In addition, you will continue to maintain your regular Account Maintenance Specialist (AMS) roles and responsibilities. Mr. Derek Echohawk and myself will be available to sign off the fund approval forms and other forms that requires ASC's attention to maintain compliance.

Lastly, I will be your direct supervisor until such time changes are made.

If you have any questions, please contact me. Thank you.

ACKNOWLEDGEMENT:

CON'T - Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

To meet the CDC guidelines, the Community Building needs to have, and HVAC system installed to properly circulate the air inside the building and allow for fresh air to be introduced to the building periodically. The existing structure does not have "barriers" to prevent direct contact with individuals in the main office. As a result, the community members are asked to remain on the exterior of the building and the Chapter Staff provide services through what was a standard window. For the safety of the chapter staff and community members using the community building, it is important to renovate the main office section to have a pass-through window and other features recommended for public buildings by the CDC and other organizations. Its also important to renovate other areas such as the restrooms, kitchen, podium, entrance/exits, and the main meeting room so it meets CDC guidelines for public meeting spaces.

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

During times of inclement weather, the Community Building serves as the Emergency Operations Center when weather related emergencies are declared. When the Community Building is being used during declared emergencies, it is also used to provide shelter for community members whose homes become inaccessible. The Community Building also serves as the meeting facility for those families who may have lost loved ones. The aforementioned are some of the necessary activities and services provided to the community of Klagehoh. The renovation of this building will essentially serve the entire community and beyond for many more years.

(c) Provide a prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024, and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

Refer to attached Timeline Klagehoh Chapter Facility Renovation Schedule. (Appendix A.2)

Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

Houck Chapter does not have a rural addressing system in place & calling the appropriate emergency response, such as the NN Police, other law enforcement, EMTs, Fire Department, etc. has caused major delays to get to the person needing medical attention. Due to remote setting, our community faces challenges that include geographical coverage areas, which result in longer times during an emergency, demographic challenges, with concentration on elders & disabled. Locating a resident is one challenge that face emergency responders & the COVID-19 is still the most emergency response document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

Rural Addressing is a priority for the Houck Chapter to establish & implement the enhanced 9-1-1 system by a physical address on a house dwelling & is located by digital mapping. The addressing method will be established through road naming & numbering; road signage project & maintaining an addressing system. The primary goal is to link each telephone number to permanent unique address that will identify where a call and resident is physically located. document attached

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

Houck Chapter will implement an aggressive 3-year objectives, starting 12/01/24, to establish and implement the RA System to support our community to prepare for and respond to emergencies, and to deal more effectively with emergencies by planning & preparing for emergencies & increasing community involvement in terms of individual citizen participation. Locating a resident is one challenge, leaving our community vulnerable in an emergency situation. The RA Project will be completed by 09/30/26. document attached

(d) Identify who will be responsible for implementing the Program or Project:

The Houck Chapter CLUPC members and Chapter Staff, with coordination from the Navajo Nation Addressing Authority. document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

The key personnel will be the Houck Chapter CLUPC Members, Chapter Staff for project oversight for technical aspects of the RA Project. We have five CLUPC Members who are willing to complete the RA Project, with close coordination with the NN Addressing Authority to assist with the RA Process. document attached

(f) State which of the 66 Fiscal Recovery Fund expenditure categories in the attached U.S. Department of the Treasury Appendix 1 listing the proposed Program or Project falls under, and explain the reason why:

2: Negative Economic Impacts and 3: Services to Disproportionately Impacted Communities. During the COVID-19 pandemic, the Houck Community was exposed to the coronavirus, some community members have recovered and a lot of deaths from the virus. The community continues to face the tragic loss of loved ones. The same problems remain within the community, with up to a third of our community members lack running water, electricity and indoor toilets, causing severe health problems to the elders and individuals with medical conditions who need to call for emergency assistance. document attached

Houck Chapter Objective Work Plan (OWP)

Project Title: Houck Rural Addressing System One-Year Plan

Project Goal: The Houck Chapter will implement an aggressive One-Year Objective Work Plan to establish and implement the Rural Addressing System to support our community to prepare for and respond to emergencies and to deal more effectively with emergencies by planning and preparing for emergencies before they happen and increasing community involvement in terms of individual citizen participation.

Project Year: One

<p>OBJECTIVE # 1: By start of Year One, conduct a community assessment based on the number of families who will need assistance during an emergency or disaster, including those with special needs, such as children, elders, people with pets or livestock, people with limited English proficiency or individuals with medical conditions. Due to the shut-down of the Chapter and Navajo Nation President Nez' Executive Order to "stay at home" during the COVID-19 pandemic, we had community members who were exposed to the coronavirus, some have recovered and a lot of deaths from the coronavirus, and Houck community will continue to face the tragic loss of loved ones.</p>	<p>MEASUREMENT: Houck Chapter will develop a GIS Map, furnished by NNAA, the Staff and CLUPC Members will meet to review and develop recommendations for road names. This requires coordinating with outside entities: the county, surrounding chapters, and other organizations to ensure no duplicate names are being recommended and the continuity of road names are maintained as they cross multiple community chapter boundaries.</p>	<p>Criteria for Evaluating: The Houck CLUPC interactions with other chapters and organizations that have formulated and implemented their Rural Addressing System.</p>

OBJECTIVE # 2: Establish and implement the community's rural addressing system by creating physical addresses to enhance the effective and rapid location of properties by public safety personnel, including law enforcement; fire; rescue; and emergency medical services in the remote areas of the Houck community.

MEASUREMENT: Houck has demonstrated the need for funding to implement its rural addressing initiative, which was never initiated by the former chapter staff. One obstacle was limited to lack of leveraging and flexibility of funding from the Navajo Nation and unstable funding sources, causing frustration and confusion when emergency responses are too slow or lacking exact direction due to numerous roads in the community. When the rural addressing project is in place, there will be quicker response to emergencies from law enforcement, fire departments, emergency medical services and healthcare facilities.

<p>Results Expected: Navajo Nation Rural Addressing Authority (NNAA) will coordinate with Houck Chapter to assist with identifying "community interest" for the purpose of recommending road names and with the rural addressing process.</p> <p>Activities</p> <p>1 NNAA will provide orientation and training, guidance, status reporting and coordination. NNAA will coordinate directly with Houck Chapter to arrange orientation and training sessions for CLUPC Members so they understand their roles and responsibilities.</p> <p>2 NNAA to provide copies of documents as listed: Rural Addressing Goal; RA Roll-Out Philosophy & Prioritization; Addressing Process</p>	<p>Criteria for Evaluating: The CLUPC Members will be responsible for working effectively together to implement the planning, coordination and maintenance of rural addressing.</p>

<p>Notes; Local Rural Addressing Committee – Roles & Responsibilities; Rural Addressing Standards; E911 GIS Standards; GPS Field Scenario; and MSAG Development.</p>		
<p>OBJECTIVE # 3: By end of Year One, complete the implementation of the uniform signage, marking roads, naming streets and to provide for the names, numbers and addressable structures within the Houck Community.</p> <p>MEASUREMENT: Houck enjoys limited community ownership and engagement in community planning and initiatives. This stems from a variety of issues that plague the Houck people- poverty, low self-esteem, poor morale, lack of faith in leadership, lack of transportation, single-parent homes where the provider works 2-3 jobs and have extremely limited schedules, and lack of accessible local media outlets to distribute information to the greater public. The Rural Addressing initiative will be implemented and established with successful results.</p>		
<p>Results Expected: By end of Year One, complete the road naming; landmarks and attributes; field verification and address notification.</p>	<p>Criteria for Evaluating: Measuring numbers of individuals for new roads and new addressable structure to be added in our community, and ensure the proper notification and follow-up processes are initiated to keep the NNAA informed of any planned or actual changes.</p>	
<p>Activities</p>	<p>Position(s) Performing the Activity</p>	<p>Time Period mm/dd/year</p>
<p>1 Processes will need to be reviewed and revised at the direction of NAA to ensure adherence to maintain the integrity of requiring a physical address before utility services are provided.</p>	<p>Lead</p>	<p>Begin 04-01-25 End 04-30-2525</p>
<p>2 The CLUPC Members must assure that every road has a name or number designation. The road names cannot duplicate other road names used within the County, or within the addressing grid. The NNAA will provide the Chapter with a printed road name maps and a listing. The CLUPC Members will provide recommended names for all unnamed roads and will verify the road names assigned by Apache County. If the road names assigned by AC are incorrect or inappropriate, the NNAA will work with the Chapter to assess the impact of a road name change and to determine where each entity's responsibility for a given roadway starts and stops.</p> <p>3 Order signs, posts for signs, other markings, etc. and initiate the installation</p>	<p>Other Support</p> <p>Houck CLUPC Members</p>	<p>Chapter Manager Houck CLUPC Chapter Manager Houck CLUPC 08-01-26 08-30-26</p>

Other Comments: Section (c) of the Appendix A - expenditure plan referenced hiring a construction contractor commencing December 1, 2024. It was not clear whether the chapter intends to begin procurement on December 1, 2024 or whether the contract with the construction contractor will be executed before that date and that actual work will commence on December 1, 2024. Please note that according to CJN-29-22, for chapter FRF expenditure plans, funds must be obligated by September 30, 2024. We are deeming this expenditure plan to be FRF eligible with the understanding that Houck Chapter plans to comply with the internal Navajo Nation deadline to obligate funds set forth in CJN-29-22. If you have questions regarding the deadlines to obligate and expend funds, please contact your assigned DOJ attorney.

Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

Houck Chapter is requesting to upgrade & rewire old electric house-wiring to be replaced for 15 homes. The Chapter conducted a community assessment for each home to determine old homes that need new electrical wiring, and it is a major critical factor for our elders, disabled who live in hazardous condition & could result in a fire. It is harder to find compatible materials to upgrade the house wiring to modern electrical standards. It is critical to replace electrical wiring for the older homes build in 1950 to 1990, which will require major electrical upgrade. document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

Some of these homes have years of exposure to inclement weather that took its toll on the homes. The extent of damage to the foundation & support of the home may not be entirely visible, especially upgrading electrical wiring to modern electrical materials. Without house wiring renovations to the 15 homes, the living standards decrease & potentially puts families at risk of severe health concerns, possibly homelessness if a fire destroys a house, & leaving families prone to COVID-19. document attached

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

The hiring of a licensed Electrical Contractor, commencing on 12/01/24, in compliance with the Chapter's FMS Procurement Process, and completed by 09/30/26. The House Wiring Project requires a licensed Electrician to assess old wiring that are possible hazardous and may indicate the electrical wiring is bad and needs replacement.

ACCEPTING AND APPROVING THE ARPA ALLOCATION IN THE AMOUNT OF \$350,000.00 FOR HOUCK CHAPTER HOUSE WIRING PROJECT, AND IMPLEMENTING THE EXPENDITURE PLANS AND REPORTING REQUIREMENTS, WITH MONITORING AND OVERSIGHT BY THE NAVAJO NATION FISCAL RECOVERY FUND OFFICE

WHEREAS:

1. The Houck Chapter was established pursuant to 26 N.N.C., Chapter 1, Sub-Chapter 1, Section 3(a) by the Navajo Nation Council CAP-34-98; and
2. The Houck Chapter complies with the Local Governance Act (LGA) and certified pursuant to 26 N.N.C., Section 102(B), which permits the Chapter to exercise authorities contained with 26 N.N.C., Section 103, including land administration authority; and
3. The Houck Chapter has the authority to provide for, promote, preserve and protect the health, safety and welfare of its community members; and
4. The FRF funds must be incurred by December 31, 2024, meaning the Navajo Nation must obligate FRF funds by that date, and the period of performance runs until December 31, 2026, with all funded chapter projects to be completed by that date; and
5. All Chapter Projects have major impacts on the Houck Community, for increased demands for electrical/water services, old houses need major house wiring, and bathroom additions, with many families without bathroom facilities, and unable to be in compliance with COVID-19 protocols; and
6. The Houck Chapter seeks all resources to accommodate short and long-term major needs for the community related to infrastructure development and have listed the ARPA House Wiring Chapter Project, in compliance with CJN-29-22, Section 3: Delegate Regional Plan, as a project to upgrade and require old electric house-wiring to be replaced for homes within the Houck Community, and it is critical to replace house-wiring for the older homes built in 1950 to 1990, which will require major electrical upgrade; and
7. The Houck Chapter Staff conducted a community assessment to determine old homes that need new electrical wiring, and it is a major critical factor for our elders and disabled who live in hazardous conditions and could result in a house fire; and
8. Houck Chapter affirms that the Chapter will only use the awarded Fiscal Recovery Funds and implement the FRF Expenditure Plan in compliance with the ARPA Regulations, and with all applicable federal and Navajo Nation laws, regulations and policies.

NOW, THEREFORE, BE IT RESOLVED:

Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

Houck Chapter is requesting funding for the construction of twenty (20) bathroom additions for the families identified through a chapter community assessment. This funding will cover building materials and labor costs. The BR addition will be an 8x12 structure, either attached to an existing house or built within the home (ADA compliance). Through this project, OEH/IHS and NTUA will provide coordination and collaboration to provide domestic water system to the 20 families currently requesting BR additions within the Houck Community. Basic plumbing, including toilet and bath facilities are at the core of modern hygiene practices. NTUA supplies & extends water, electricity, natural gas, wastewater treatment & telecommunication services to homes & businesses through the 27,000 sq. mile of the document attached

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

APPENDIX A

The goal of the Chapter is to construct 20 bathroom additions over a 3-year period, commencing 12/01/24 & completion in September 2026. This will be done in 2-phases with 10 units in the 1st phase & 10 units in 2nd phase. This will be an excellent example of cooperation & coordination between the 3 entities, Houck Chapter, OEH & NTUA. The challenge are how NTUA & OEH will work with multiple chapters who need these services.

Yá'á't'ééh/Hello:

We are inviting you to take part in a research study being conducted by the University of Arizona titled as: *Wind Erosion Risk on Navajo Nation Lands of the Colorado Plateau*. The University of Arizona, the Navajo Nation Department of Fish & Wildlife, and the U.S. Geological Survey Southwest Biological Science Center would like to understand your perspectives and concerns on wind erosion risk to Navajo natural and cultural resources from dust and sandstorms. Wind erosion is a natural process by which wind moves soil from one location to another, generating dust and sandstorms that can cause damage to humans and the environment. Through this study, we aim to conduct a community survey and wind erosion risk assessment to better understand wind erosion risk to community members and residents on Navajo lands.

Your participation in this community survey will be greatly appreciated and you will be able to enter a raffle for a chance to win a package of native seeds and Navajo traditional foods. This survey will take no more than 15 minutes to complete. The results from this survey will be reported as anonymous summaries and your personal information will not be shared. To be eligible to participate in this survey, you must be: 1) 18 years or older and 2) a current resident and/or community member on the Navajo Nation for at least the past 2 years.

Thank you for your time and interest in our survey. This survey will be available from January 2023 to April 2023. To access this survey, you can visit online via the link and/or scan the QR Code (below). If you would like an electronic or paper copy version of this survey to fill out, please contact the PI (see below). Paper copy surveys will be postmarked and mailed to research participants upon request. If you know of others who might want to take it, please forward them this letter and flyer (attached), or our contact information to them or let us know who we should contact. Should you have any questions or need more information regarding this survey please contact Principal Investigator, Marquel Begay at 928-255-9356 or mabegay@email.arizona.edu.

Sincerely,

Marquel Begay

Wide Ruins Chapter Responds to Questions – “Additional Information Requested” by NNDOJ

Comment: The ARPA Housing Assistance Application were utilized for the three (3) applicants (see attachments) which provided all relevant information to justify the acute living condition and environment and the need to obtain safe and sanitary home and provide suitable living environment for themselves and their families.

Question 1: One of the criteria used was these existing homes are dilapidated, substandard & overcrowded conditions; and deficient in kitchen and plumbing facilities. Secondly the applicants are low-income and have no immediate resource (mortgage loans) to obtain standard housing. Lastly, these families are living under one/roof causing multi-generational & overcrowded condition which leads to a risk of COVID-19 and under-housed.

Question 2: The Total Development Cost for Affordable Housing under the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) was utilized to develop or acquire affordable housing under the SW Regional ONAP Office for Navajo Nation with a TDC cost of \$443,234 for a 3-Bedroom unit.

The U.S. Department of Housing and Urban Development is the primary provider of new housing on Indian Reservation (Navajo).

Question 3: The HUD cost of homes were established by family size and determined the bedroom size. The applicants lack of resources to mortgage a home are not affordable.

Question 4: The secondary provider of housing is the BIA Housing Improvement Program (HIP) who provides new home to qualified applicants who “do not own a home”.

Another resource is the Southwest Indian Foundation Housing who concentrate of building homes for the homeless & transport to predetermined homesite location within a 50 miles radius of Gallup, NM and Wide Ruins is over 65 miles.

Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

These homes have been built 30-40 years ago and in dire need of sewage/septic tank replacement. Approximately 100 homes need to have their septic tank replaced and reconstructed upon assessment. The spread of COVID-19 is currently on the rise again and to prevent this, the families need sub-standard plumbing to wash their hands, disinfect and to minimize close contact. The outdated sewer/septic tank will improve the health and hygiene of the individual.

document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

This would eliminate contact with raw sewage and overgrowth of weeds around the septic tanks. Eliminate backup sewer problems. The raw sewage as a result of poor infrastructure, creates both short and long term health conditions. These projects would improve the livelihood of the individuals who lack critical infrastructure.

document attached

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

APPENDIX A

The funds should be all expended in the time frame allocated, at this point we will be researching for liable contractors that specialize in septic tank replacement/bathroom renovation and are registered with NN Business Regulatory.

document attached

(d) Identify who will be responsible for implementing the Program or Project:

NDCG Administrative staff will be responsible to identify families or homeowners that need this service. Public notices will be posted for community awareness and will develop criteria for these services.

document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

There will be no need to maintain the septic tanks. It will be up to the individual homeowners to take on the responsibility to ensure proper maintenance and care of septic tank.

I am requesting approval of Legislation 0111-23 for the Five Chapters that Council Delegate Aseret represents. We have completed our Expenditure Plans and Budget for our ARPA Chapter Projects, and required a lot of hard work. We would like to start the chapter projects as soon as possible and it is for the benefit of our community members, who are in dire need of water, electricity, renovation of homes, bathroom additions, etc. It relates to the safety and well-being of our community members.

Sincerely,

Laura Lee Yazzie, Houck Chapter Manager

Good afternoon,

My name is Shelby and I am submitting this comment in favor of Legislation 0111-23, Wide Ruins Chapter bathroom additions. Our community would greatly benefit from bathroom additions and be able to provide a comfortable, sanitary and a safe living environment for our community members and their families. These funds would immensely benefit our Dine' people

Thank you,

Shelby Mike

I am Lois Watts from Houck Chapter. I am in support of approval for legislation 111-23, Lomardo Aseret's ARPA submission for our community. Our community needs electricity, housing renovation, bathroom additions, and rural addressing. The chapter officials, staff, and the community have been meeting, planning, getting resolutions, that support input from the community which is now formulated into plans and are now in this legislation. It has taken a lot of work and now we await approval so work can begin.

Thank you for affording the opportunity for our comments.
